The report also highlights the need for a strengthened National Disability Strategy for the ³ next day, with ³ requirements for monitoring³ reporting, ³ evaluation³ governance and accountability. ÄThe National Disability Strategy, which addresses issues such as transportation, accessibility, employment and community expectations, provides the basis for other policies, such as the National Disability Strategy, to achieve their goals. In a sense, this is a critical piece of infrastructureÄ said Dr. Gauntlett. Select file: CRPD_C_AUS_CO_2-3-AR Ä ÄÄÄ Ä Ä 1Ä Ä±ÄÄ 1Ä Dr. Gauntlett said all Australians benefit from a good disability policy, not ³ the 4.5 million Australians currently living with a disability. Continued efforts are needed to ensure that the rights set forth in the Convention³ are not reflected in policies, programs and communities.
